## Our Theme is 'Spring and Growing'

Spring is finally on its way and this theme is always popular. We shall spend time looking at life cycles and learning about the different stages. We shall plant flowers and vegetables in our garden, the children will learn how to look after them, watching them grow. We will even be tasting the vegetables!

Spring also means 'Easter' and we will spend time enjoying the festivities with 'Egg Hunts' in the garden, and a few chocolate treats!
